INTRODUCTION

Solar portable folding bag is a product that converts solar energy into electricity. It can charge for 5V / 12V battery through a special port. SUNPOWER high-efficiency solar cell, conversion rate up 21%, with beautiful appearance, light and practical characteristics.

Open the product and lay it flat on the grass or lean against the support facing the sun. Solar folding directly facing the sunlight, which can make convert solar energy into electricity in most efficient way.

It's 100% compatible with SolarPoint Powerbox 1500W Art.Nr° 991277.

DESCRIPTION

- Folding method: 1 x 8fold
- Folding size: 300 x 545 x 125mm \pm 3mm
- Expansion size: 2258 x 545 x 40mm \pm 5mm
- Weight: 6.5kg \pm 0.3kg

SPECIFICATION SHEET

Product Name	SolarPoint Panel 200W
Charging interface	DC: 18V USB: 5V and aviation male
Wire:	0.9m and 14AWG black round wire, with 12-2 aviation male
Performance parameters of standard:	
Peak power	200W
Peak voltage	17.6V
Peak current	11.36A
Open circuit voltage	20.8V
Short circuit current	12.5A
USB 5V charging efficiency	85%
USB maximum output current	2.9A
USB output voltage	5.0V
DC output current	5.5A
DC output voltage	17.6V
Working environment temperature:	
Dust and water proof grade	-20°C~60°C IP45

Advice for users of this product!

This symbol indicates that electrical and electronic equipment must be disposed of separately from municipal trash at the end of its operational lifetime. When the device has become unusable, dispose of it in accordance with the current statutory regulations.
